Upload Diesel Multiple Units here.

- [Alstom Coradia LiNT 41/DB BR 648](#)
- [Class 130 \(FICTIONAL\)](#)
- [Stadler Regio-Shuttle RS 1/DB BR 650](#)

Alstom Coradia LiNT 41/DB BR 648

THE PRESET-FILES CAN BE FOUND IN THE [ATTACHMENTS](#) SECTION ON THE LEFT!!

Files with v0.10 behind the vehicle type only are compatible with ZnD-Version v0.10.X

Specifications:

Train Creator:	Ld44hbxhkhhr
Vehicle's Country:	Europe
Vmax/Max speed:	120km/h
Coupler Type:	Scharfenberg
Coupler Height:	0.9
Number Of Seats:	122

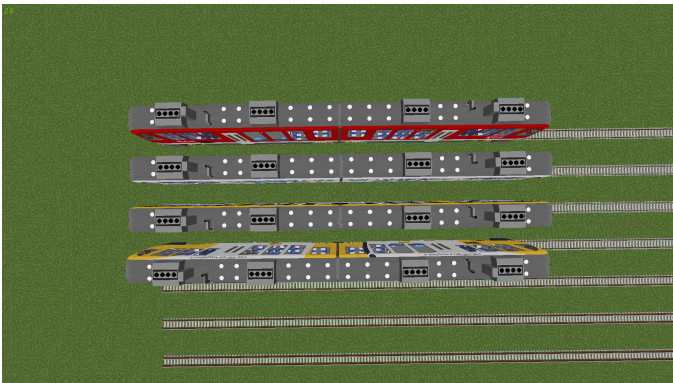

Repaints:

- Alstom LiNT 41 Factory-new-edition (made for repainting)
- BR 648 DB-Regio-edition
- BR 648 DB-bwegt-edition
- Alstom LiNT 41 Syntus

Additional Information:

- ZnD v0.9.X: Do NOT couple more than two train-halves to another (like in the picture) or your chunk will crash!
- ZnD v0.10.X: Coupling 3 DMUs to eachother is possible.
- If you make your own repaints and post them online, please credit me in your post.

Pictures:

Class 130 (FICTIONAL)

↩ Attachments are over there to download.

Specifications:

Train Creator:	ilian7611 (discord)
Vehicle's Country:	Fictional but probably the UK
Max speed:	120Km/H
Coupler Type:	Janney
Coupler Height:	0.65
Number Of Seats:	12
Compatible ZnD-Versions:	V0.10 (might not work on 0.9)

Repaints:

- None but feel free to repaint! Credit me though.

Additional Information:

This is my first ever PROPER train! My first ever non-proper train was the battery-powered DBpza cab car and im glad how this train turned out!

This is a DMU btw
